

Lets Learn Science!: Force

Week 1: Push!

Push

Everyone has pushed something before, but what really happens when you push?

When you push force goes from you to the object, moving it!

Push Video

Push Activity

Dominoes!! Split the class in groups of 5 and have them set 20 dominoes out in their liking. Instruct them to push the last domino to the direction of the remaining ones and have them observe!

Vocabularies

Push - Moving objects away from you

Force - The power that helps us move things
